

Jenkins

exp4-a

Configure

General

Source Code Management

Triggers

Environment

Build Steps

Post-build Actions

terminate a build if it's stuck

With Ant

Build Steps

Automate your build process with ordered tasks like code compilation, testing, and deployment.

Execute Windows batch command

Command

See the list of available environment variables

cd "C:\Shahroz\Exp4"
javac hello_world.java
java hello_world

Advanced

Add build step

Post-build Actions

Define what happens after a build completes, like sending notifications, archiving artifacts, or triggering other jobs.

Add post-build action

Save

Apply

```
public class hello_world
{
    public static void main(String[] args)
    {
        System.out.println("Hello World");
    }
}
```
